

# Our Story

Burger Cloud was born on a rainy afternoon when two best friends, Leo and Max, decided that burgers deserved to be just as light and delightful as the clouds above. Sitting at a tiny diner with storm clouds swirling outside, they dreamed of a place where juicy burgers floated into your day like a sunny surprise. With only \$500, a food truck, and an old family recipe for cloud-soft brioche buns, Burger Cloud launched into the skies of flavor!

Today, Burger Cloud serves thousands of dreamers and foodies every week. We believe in big flavors, friendly smiles, and bringing a little bit of sky-high joy to every bite. Whether you're after the Classic Cloud Burger or daring to try our Spicy Lightning Bolt Burger, we promise every meal will lift your spirits. After all, the sky is the limit at Burger Cloud!
